

#### PLANO KEY FACTS 2024

## our mission: make life better for children

Since 2008, the Children's Health<sup>SM</sup> Plano campus has been committed to providing high-quality health care to children living in communities where population growth continues to outpace both the state and the nation. Children's Medical Center Plano, our region's first full-service pediatric hospital north of Dallas, is equipped with the latest technologies and offers more than 30 specialties and subspecialties. In 2024, we opened a new tower at the Plano hospital that nearly tripled the number of beds and significantly enhanced clinical capabilities. Today, we proudly serve more patients and families close to home, where they need it most.

## Industry recognition

Accredited as a Level III epilepsy center, offering a comprehensive approach to the diagnosis and treatment of epilepsy

Designated as a Magnet facility for nursing excellence and innovation since 2009

Designated a Level II Children's Surgery Center, making Children's Health the first and only pediatric health system in the country to have multiple sites with a Level I or Level II designation

**55,790**

**212**

Licensed beds

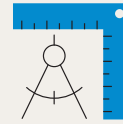

Surgeries

**8,195**

Team members

**1,973**

Square feet

**1.03 million**

\*Numbers as of Dec. 31, 2024

## Expanding care for kids

When we first broke ground on the Children's Medical Center Plano campus in October 2005, we did so with the promise to care for the children in our community and to grow alongside them. In late 2024, Children's Health reaffirmed our promise by opening a new patient tower that doubled the capacity of the Emergency Department, nearly tripled the bed count and significantly expanded clinical capabilities on the Plano campus, enhancing access to world-class care.
