

# Haiku Clinical Image Capture

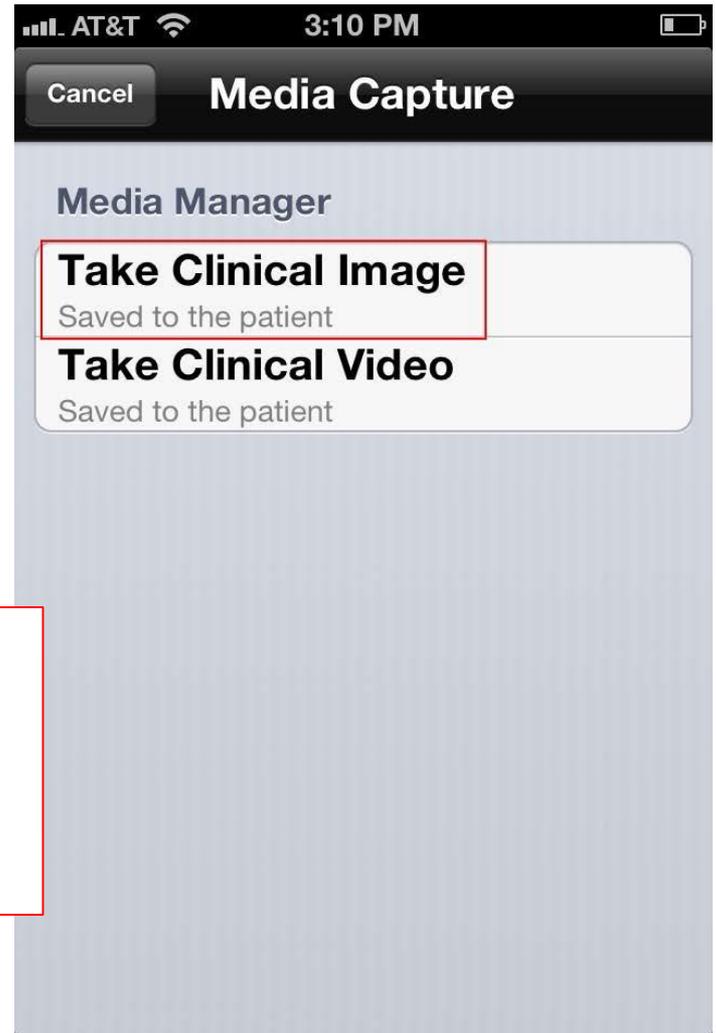

# Haiku Image and Video Capture

- Allows capture of video and photos from iPhones running the Haiku application
- Photos and video are not saved to the phone
- All photos and video appear in Hyperspace on the 'All Media' tab

# PHOTO CAPTURE

Select the camera icon in the patient header, then select Take Clinical Image.

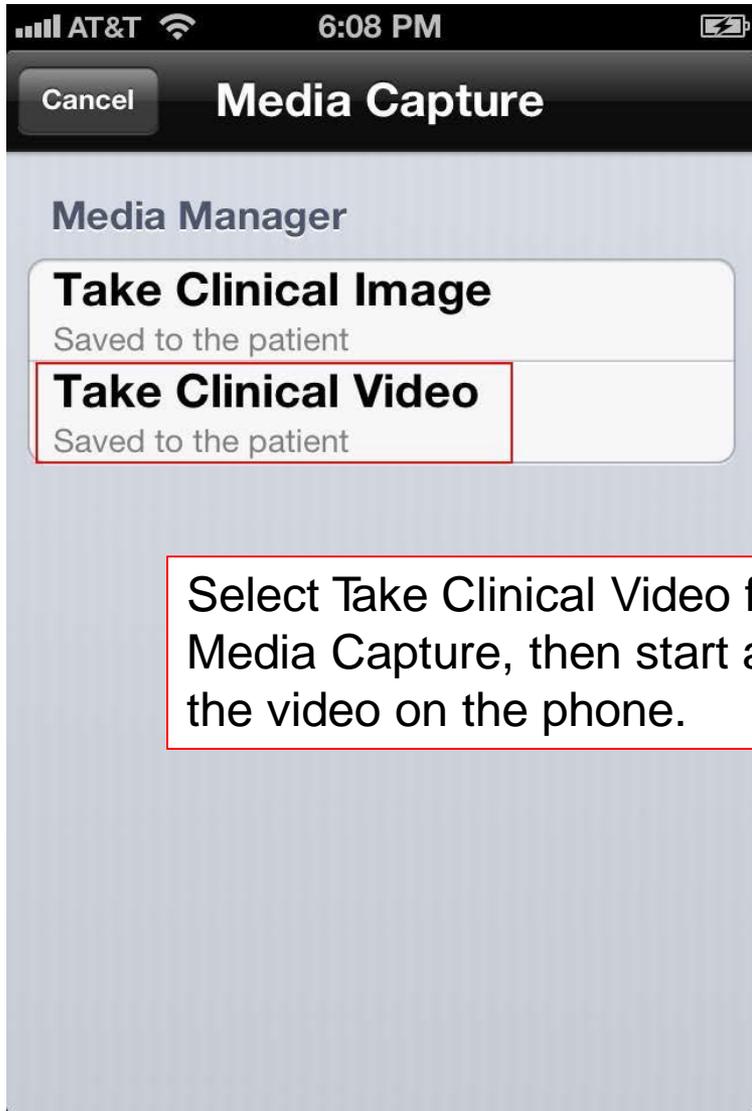

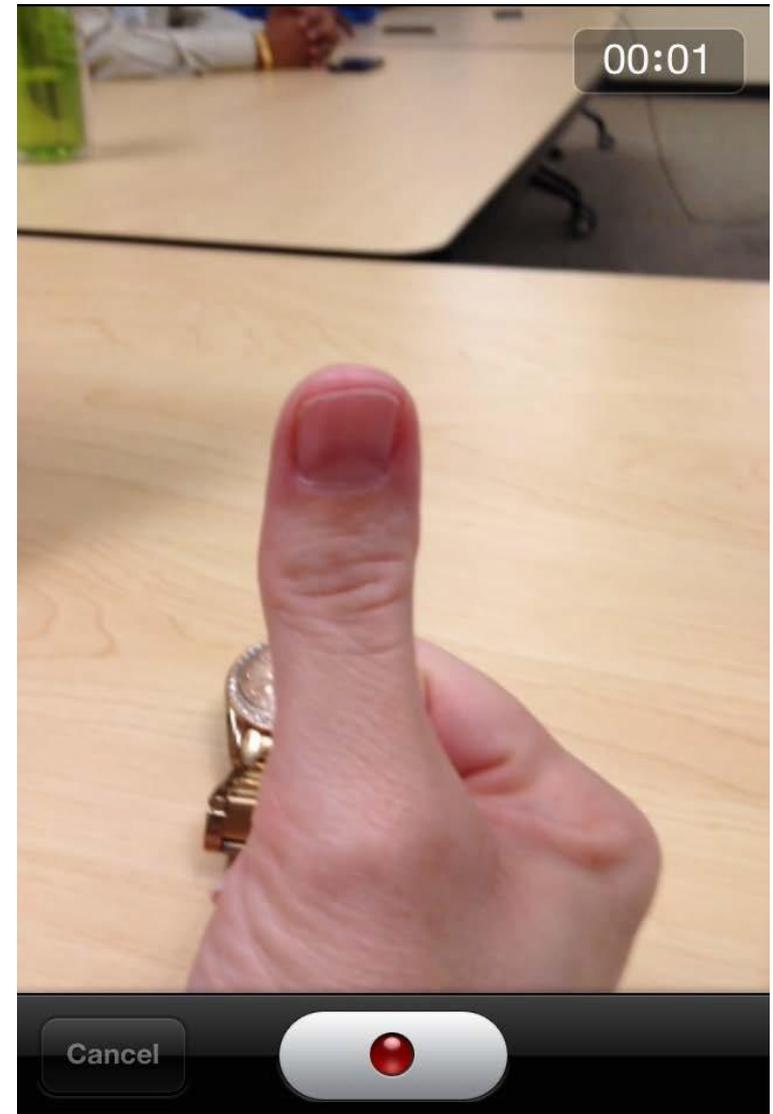

After taking the photograph enter a description on the Media Properties page. The Category will default to PHOTOGRAPH. Touch the Save button to post to the patient record.

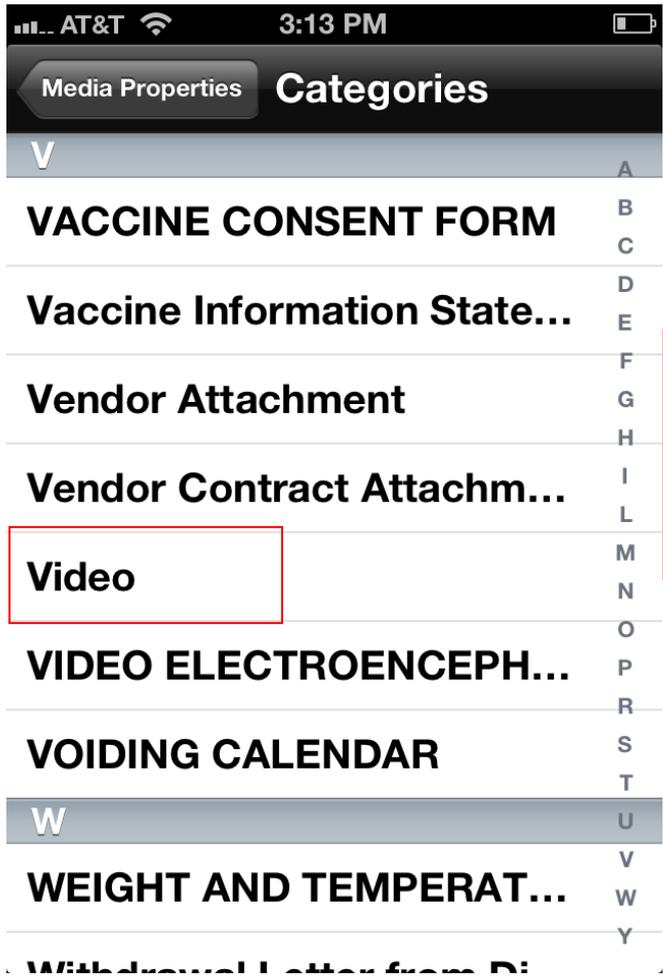

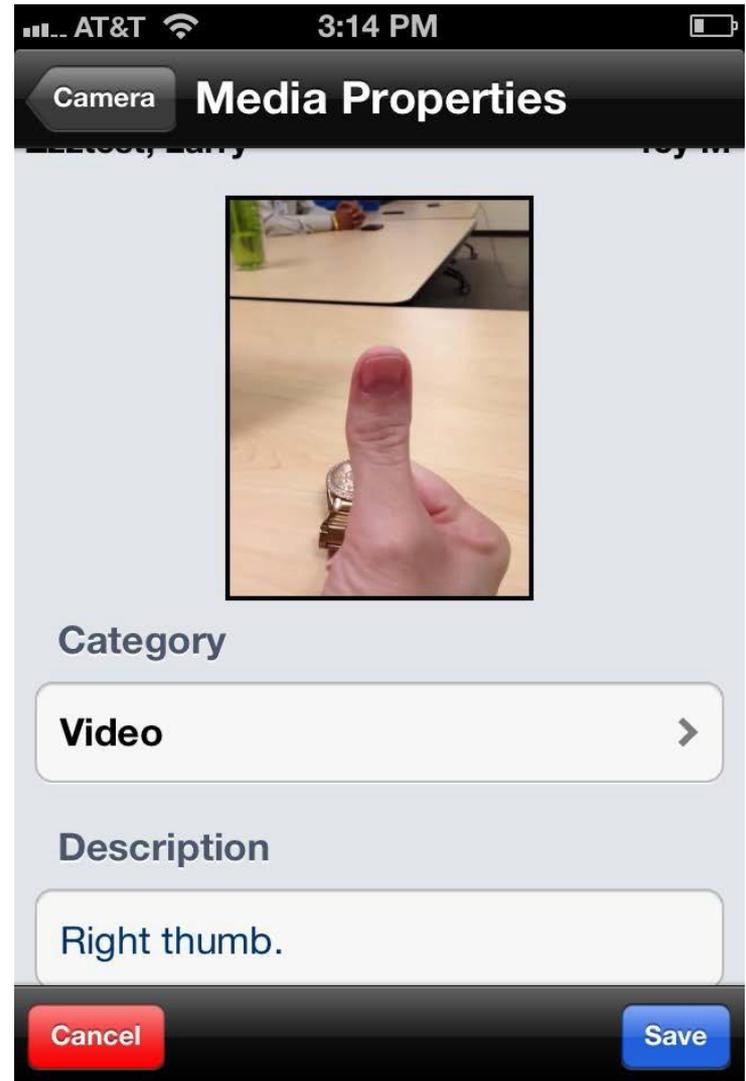

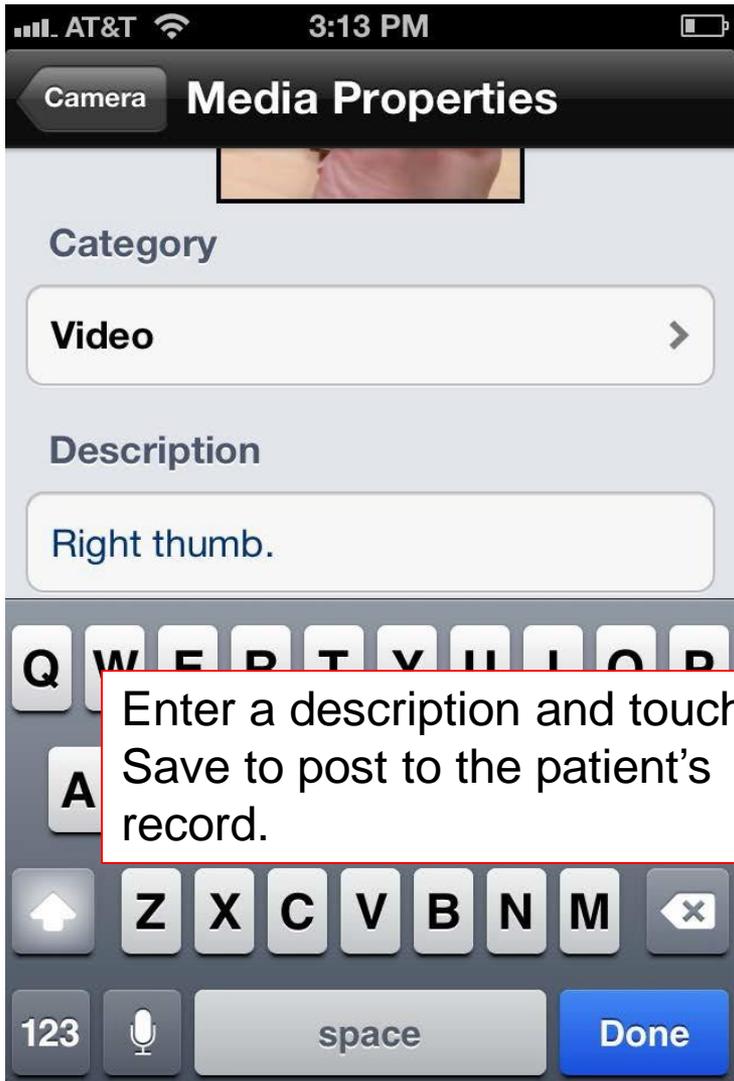

# VIDEO CAPTURE

Select Take Clinical Video from Media Capture, then start and stop the video on the phone.

Images and Videos will appear on the All Media tab.  
Images will post to the patient's open encounter with the  
import date and time.
